FA CAPABILITIES AND SERVICES

Our verifications determine whether the information provided by a candidate is accurate. Common inaccuracies include grades achieved, positions held and length of employment - all of which can have a significant impact on a candidate's ability to perform effectively in their role. We always contact former employers / institutions directly, rather than the individual provided by a candidate, to avoid the possibility of speaking to someone masquerading as a legitimate referee.

Digital Onboarding is a solution for any organization in order to adhere to social distancing norms. The service assures efficient online onboarding of the candidate, removes the hassle of paperwork and further eliminates the need of the candidate's physical presence.
