

Background Screening Trends India

APRIL TO JUNE

Quantifying the trends and qualifying the nature of discrepancy patterns in India

GLOSSARY OF TERMS

APRIL TO JUNE

Cases

One case indicates one candidate. It is denoted by a case reference number which is unique to that particular candidate.

Component(s)

Screening carried out for various phases of the candidate's background like Employment, Education, Address, etc. are termed as Components.

Employee Category

The designation at which the candidate worked/is working [current employment] in the organization.

Customer

The organization which authorizes First Advantage to conduct the verification.

Industry

The industry sector/segment under which the Customer falls. All abbreviations used are as per Indian standards of industry bifurcation and are easily accessible via the internet.

Possible Suspect

Any organization or company whose credentials might not be genuine.

Checks

One case can have one or more than one check based on the credentials being verified.

FOR EXAMPLE

First Advantage is conducting a background check for a candidate ABC [Case].

The check is authorized by a [Customer] say XYZ Corp. This customer belongs to the BFSI sector [Industry].

As per the customer's mandate, the screening components include latest Education and two previous Employments of the candidate. Here Education and Employment are [Components] & there are a total of three Checks - one Education and two Employment [Checks].

Depending on a predefined matrix followed by the customer, either as standardized by First Advantage or a customer customized matrix - a disconnect identified [Discrepancy] would be categorized as major or minor discrepancy, suspect, [Possible Suspect], etc.

Disclaimer:

This presentation contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not historical facts. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect" and similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to various risks, uncertainties, assumptions, or changes in circumstances that are difficult to predict or quantify, including those described under the "Risk Factors" section in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, as such factors may be updated from time to time in our periodic filings with the Securities and Exchange Commission (SEC), which are accessible on the SEC's website at [HYPERLINK "http://www.sec.gov" www.sec.gov](http://www.sec.gov). Any forward-looking statements included in this presentation, or our SEC filings are made only as of their respective dates, and we undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments, or otherwise, except as required by law.

“

We are serving innovation through integrated technological developments and digital screening solutions.

”

FOREWORD

Dear Readers,

With India making consistent progressive strides towards economic recovery, Companies are pursuing a variety of expansion strategies which has created a strong demand for skilled talent in the market. Implementing a comprehensive employee screening program is a good practice and safe approach for businesses to chart an ethical future.

At First Advantage, our primary focus is on improving client onboarding experience, lowering delivery cycle times, and enhancing quality performance. To support this goal, we are bringing market innovative technologies, implementing modern architectures, and producing leading API frameworks – all while driving high customer satisfaction and creating a positive applicant experience.

Highlights of Q1-22

- In Q2-22, industries such as BFSI, E-Commerce and Logistics, Retail & Telcom showed substantially greater discrepancy percentages than the overall average of 11.3 percent.
- Discrepancy percentage in the BFSI sector increased from 18.6 % in Q1-22 to 20.07 % in Q2-22.
- For Employment Verifications IT, BFSI, FMCG and Manufacturing sectors have shown higher inclination towards alternate modes of verification.

In the current digital and hybrid work environment, it is more important than ever that businesses understand best practices and trends for employee background checks when looking to expand or manage their workforces.

We are delighted that you are getting the required perspective and insights from our Trends report.

Always, proud to be of service to you!

AMIT SINGH

FA CAPABILITIES AND SERVICES

Our verifications identify discrepancies with information provided by candidate. Common discrepancies appear in applications which include grades achieved, positions held and length of employment - all of which can have a significant impact on a candidate's ability to perform effectively in their role. We always contact former employers / institutions directly, rather than the individual provided by a candidate, to avoid the possibility of speaking to someone masquerading as a legitimate referee.

Digital Onboarding is a solution for any organization in order to adhere to social distancing norms. The service assures efficient online onboarding of the candidate, removes the hassle of paperwork and further eliminates the need of the candidate's physical presence.
