

AX - Applicant Experience

Faster, Simpler, & More Inclusive

[Learn More](#)

Hire Smarter. Onboard Faster.

AX is an innovative API-first background screening solution that integrates with global partner ecosystems to simplify the applicant experience and deliver lightning-fast turnaround time for recruiters

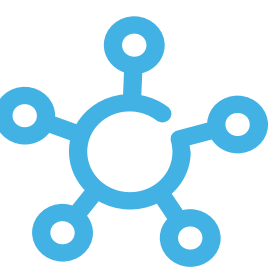

Simple

With an intuitive, mobile-first workflow, applicants can complete a background screen in minutes, on any device, even on the go.

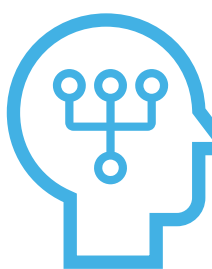

Safe

Hire confidently, even for remote roles, with multi-factor authentication of documents, liveness, biometrics, and background information.

API-First

With flexible API connectivity, AX leverages global partner ecosystems to power input automation and reduce friction.

Predictive

AX eliminates manual work by automatically identifying and pre-filling required forms with accurate information, delivering better quality of input and lightning-fast turnaround times.

DEI-Forward

Available around the globe with multi-lingual support, AX delivers WCAG 2.1AA accessibility and inclusive experiences to support your organization's DEI initiatives.

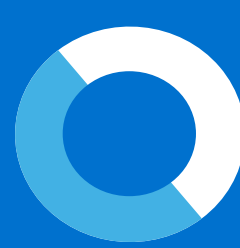

Gain an Advantage in a Competitive Talent Market

Onboard Faster

Next-generation background screening technology reduces hiring time and expedites onboarding.

Hire Smarter

Predictive intelligence and API-powered autofill improves input quality and accuracy.

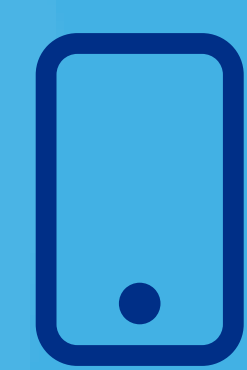

Exceptional Experience

Simple and inclusive applicant experience makes background screening faster and easier than ever.

With RightID™, Background Checks Have Never Been Easier

All applicants need to do is take a photo of their ID document and snap a selfie, and their identification is verified in seconds by our intelligent decision engine.

RightID™ matches biometric data to the ID, instantly and accurately confirming the identity on the first try.

Instantly Verify Employment and Educational Background.

API integration with payroll providers and educational institutions enables automated input to help verify background information.

Screen in seconds, not days.
