With our healthcare-focused screening solutions, you get experts who understand the unique hiring procedures in the healthcare industry to ensure your specific needs are being met.

One Source to Meet All Your Screening Needs

First Advantage gives you access to a one-stop shop of premium products and services, ranging from criminal background checks and identifications to compliance management solutions. You also get access to a wide selection of specialized healthcare searches and verifications with some of the highest success rates in the industry.

Background screening and drug testing: Verify the applicant's identity, education and work history including any associated criminal records and you can also incorporate ongoing drug testing for a stronger workforce.

Contractor screening: Protect the integrity of your organization and the safety of the people you serve by screening the contract workers who enter your facilities.

Medical compliance services: Automate your manual compliance tasks and streamline your health and safety programs with our innovative suite of web-based compliance tools, physical exams (regulated and non-regulated), incident recording and tracking, license tracking, contagious disease control, inoculation control and more.

Global screening: Find the best talent domestically and abroad in more than 226 countries and territories using our robust international screening services.

Employment eligibility verification services: Update a traditional, paper-based I-9 program to an efficient, automated process with our easy-to-use, web-based employment eligibility verification services.

Healthcare-Specific Searches (unrestricted):

- Fraud and Abuse Control Information System (FACIS®) identifies providers that have been sanctioned by both federal and state licensing agencies; Department of Health and Human Services (HHS), Office of Inspector General (OIG) and Government Services Administration (GSA) debarred entire databases are included.
- Federal Drug Administration (FDA) lists names of investigators who have, at one time, been disqualified or restricted, or made assurances in their use of investigational products for FDA trials.
- State-specific OIG lists (where applicable).

Healthcare-Specific Searches (restricted):

- National Practitioners Data Bank (NPDB) provides information on medical malpractice payments, adverse licensure, clinical privilege and professional society membership actions.
- Healthcare Integrity and Protection Data Bank (HIPDB) provides information that combats fraud and abuse in health insurance and healthcare delivery.

Reduce your exposure to risk and compliance issues:

First Advantage Healthcare Exclusions, Actions and Licensure (HEAL) Monitoring for healthcare organizations offers real-time monitoring to replace the time-consuming process of manually checking multiple sources, keeping your healthcare program compliant with federal and state regulations.

The integration advantage: Integrating background screening into your Applicant Tracking System (ATS) or Human Resource Information System (HRIS) provides a seamless, easy process for faster onboarding.
