Drivers License

A Drivers License search is a search of the applicant's current driving record. The license information is obtained directly from state records.

The results will list the status of the license (Valid or Suspended) and any violations or previous suspensions. In most states the license actions cover a period of 3 years, though there are some states with longer histories on DL reports.

The top portion of the section lists the name/address on the license, the date the license was issued and the date it expires. Also, the status of the license.
